Measuring results | Les mesures des résultats

Parliamentarians are provided with modern accommodations that meet their needs.	Percentage of projects delivered on time and on budget	90%
Projects generate jobs for Canadians, including unique opportunities for youth, apprentices and indigenous people	Number of jobs (person-years) of employment to be created (new projects: approx. 2017 – 2038)	17,000
	Number of partnerships with colleges/universities to build industry capacity and leverage innovative practices	5
	Annual % of student population in Parliamentary Precinct Branch workforce	5%
	Contracts for major projects that encourage companies and sub-companies to demonstrate reasonable progress towards a fair representation of the Canadian population and to meet the labour market availability (including youth and indigenous people)	100%
	Major projects contain provisions to sub-contract 5% of work to indigenous firms	100%
	% of work as part of major projects done by small and medium enterprises	90%
Parliament is more accessible, family friendly and open to the public	Major projects exceed the 2015 National Building Code provisions in terms of accessibility to ensure the sites and facilities can be used by people from all walks of life, ages, and physical situations; including those with sensory or cognitive disabilities	100%
Parliament is a model of sustainability	Percentage reduction in Greenhouse Gas Emissions from 2005-2006 levels	80% by 2030
	% of electricity purchased from clean energy sources	100% by 2025
	Amount spent on clean technology	≥\$100M
	Major projects apply green design principles and contain smart building technology to lower cost and the environmental impact	100%
	Increase number of electrical vehicle charging stations from 10 to:	100
